### Emilee's story

**Emilee Rose** was born at 27 weeks weighing only 1.6 pounds at 12.2" in length.

She was born with numerous medical conditions, some of which still require therapy. Her current medical conditions are BPD (Chronic Lung Disease), severe reflux, and SID (Sensory Integration Disorder). Emilee's BPD requires her to be on oxygen 24 hours a day with breathing treatments twice daily. She needs to sleep in an upright position and take two medications three times a day for reflux. SID, an autism spectrum disorder, causes her to be tremorous at times due to overstimulation from sound, light, or texture. At times she just can't be touched and she cannot tolerate being outside more than 15 minutes.

Adults \$20.00 in advance  
\$25.00 at the door  
Kids under 17 \$5.00

**Cash & checks only  
at the door**
